The **Health Science Instructional Supplements** support health science teachers in the alignment of classroom instruction to the National Healthcare Foundation Standards. The resources are based on the National Healthcare Standards and accountability criteria. The supplements are designed for use in conjunction with state curriculum resources, plans, and outlines; as well as textbooks and resources that accompany those textbooks.

Standard 1: Academic Foundation

Standard 2: Communications

Standard 3: Systems

Standard 4: Employability Skills

Standard 5 & 6: Legal Responsibilities and Ethics
