HOSA Scholarships Awards Through Generous NCHSE Partnership

Press Release August 16, 2016

[HOSA–Future Health Professionals](#) recently celebrated forty years of successfully creating and growing a professional career and technical student organization from a few states in 1976 to

an international organization with 53 states and countries and over 201,500 members in 2016. Through the years, partners like the National Consortium for Health Science Education have supported HOSA's continued success. As HOSA begins gearing up to begin another school year, NCHSE received thank you for the tremendous partnership with HOSA–Future Health Professionals.

The NAF – HOSA – NCHSE Partnership Rolls Out a Resource To Highlight Classroom Connections

Press Release: August 16, 2016

[NAF](#) and [HOSA–Future Health Professionals](#) value the work of the [National Consortium for Health Science Education](#). Both NAF and HOSA serve on the NCHSE Board of Directors and align their programs with the [National Health Science Standards](#) to support consistency and a common framework in the preparation of future health professions.

During NAF's curriculum development for the Academy of Health Sciences courses, the National Health Science Standards were included to provide an interconnecting structure to these nationally validated standards and a consistent point of reference.

2016 Health Professions Week

Considering a career in healthcare? Don't miss the inaugural Health Professions Week (HPW), September 26-30, 2016!

Health Professions Week (HPW) is an exciting, FREE week-long event for high school and college students that offers multiple opportunities to explore 19 different health professions. Throughout the week, you will have the chance to learn about the roles and responsibilities of each profession, talk directly with current healthcare practitioners, and access the educational requirements for each career. Each event during HPW provides you with interactive opportunities to explore health-related education programs and careers.

HPW will include an online treasure hunt, campus outreach events, and two virtual fairs.

For all info about registration, event schedule, participating organizations, and promotional videos, [click here](#).
