Certification for Jobs in the Medical or Dental Office

Only AMT Offers All This

- **Rigorous standards** ensuring that allied health professionals have the practical skills and knowledge to be successful in their jobs.

- **A solid reputation** as a preferred agency among many healthcare employers and governing bodies across the country.

- **Automatic membership in the national professional association** for support throughout their careers.

- **Exams accredited by the National Commission for Certifying Agencies (NCCA)**, a recognition reserved only for organizations meeting NCCA’s high standards.

See eligibility requirements on the reverse side.

**Affordable and simple process for the highest quality certification.**
