

PRESENTING A FREE WEDNESDAY WEBINAR • AUGUST 12, 2020

**STEPPING TOWARD CHANGE
USING THE ALL NEW HEALTH SCIENCE CURRICULUM ENHANCEMENTS
*CREATED BY TEACHERS FOR TEACHERS***

The **NCHSE Health Science Curriculum Enhancements**, first published in 2012 have been a longtime popular classroom resource to support delivery of the [National Health Science Standards](#). Over time, revisions have occurred to align with standards updates.

In August 2020, the 6.0 version will be released; *developed by teachers for teachers*. It's labeled a **GAMECHANGER**; a major redesign with content outlines, PPTs, activities, projects, videos, websites, and test items; even more exciting—the infusion of technology. This learning tool will be valuable for face-to-face, blended or completely online instruction. Once purchased through our [online store](#), teachers receive a link to download the content; organized in folders around the eleven foundation standards.

New information will be introduced this fall, as opposed to the close of the 2019-2020 school year when teachers were slowly wrapping up course content. Health science teachers may be asked to develop material and implement successful delivery strategies in a variety of settings.

The Consortium (NCHSE) stands ready to offer fresh, highly engaging material aligned to the National Health Science Standards through the Health Science Curriculum Enhancements.

[Sign up for this free Wednesday Webinar, August 12, 4:00 PM \(ET\) which will highlight the new resource and ways to maximize its use.](#)

Register in advance:

<https://us02web.zoom.us/meeting/register/tZlpc-yrrz4pEtwK6GV7lKugqwVslm2cbbTF>

After registering, you will receive a confirmation email containing information about joining the webinar.

The recording will be posted: <https://www.healthscienceconsortium.org/webinars/>
